FRAMELESS

## TRAVIS® INTRODUCES ITS NEWEST INNOVATION, THE VERTEX®

**ver•tex** a patented trailer design which combines **Vert**ical panels of an **Ex**truded, dual-wall trailer. Also, the highest point, the apex, or summit.

In production since April of 2009, the VERTEX® adds to the powerful line-up of smooth-sided innovations from Travis® that date back to 1989.

FRAME-TYPE

QUARTER-FRAME OR HIGH-SPILL

The patented VERTEX® boasts many features and benefits:

- Available as a Frameless, Frame-type, or Quarter-Frame,
- Tandem, tri-axle, quad-axle, spread-axle, virtually any configuration
- Also available as Live Floor, or Tipper Trailer
- Lightweight, heavy duty all aluminum construction
- Aerodynamic smooth-sided fuel saving design
- Dual-wall, longer life, extruded 6061-T6 aluminum walls
- Thin wall adds capacity, and inner wall hides any dents
- Polished sides for cosmetic look, and company image
- The VERTEX® end dump comes with a Travis 5-year limited warranty
